

The 'ILL this with ILLiad @ H' link is available in many University Libraries databases and is usually found on the **detailed record** screen—this is the page that displays information about just one item, often one you've selected from a list.

For example, in WorldCat, here's the list of search results for the title Running for Dummies:

The screenshot shows a search results page with a blue header. At the top, there are tabs for 'All 11', 'Books 10', and 'Internet 1'. Below the tabs, there are filters for 'Limit results: Any Audience', 'Any Content', and 'Any Format', along with a 'Search' button. The results list four entries for 'Running for Dummies /'. Each entry includes a small icon, a title link, and detailed information such as author (Griffith Joyner, Florence Delorez, 1960-1998.; Hanc, John), publication (Foster City, CA : IDG Books, 1999), document type (English : Book), and 'Libraries Worldwide' count (776, 14, 8, and 6 respectively). Each entry also has links for 'More Like This' and 'See more details for locating this item'.

Clicking on the first item on the list will bring up the detailed record...

The screenshot shows the detailed record page for 'Running for Dummies /'. At the top, there are tabs for 'Detailed Record', 'Table of Contents', and 'Add/View Comments'. A yellow arrow points to the 'Detailed Record' tab. On the left, there is a book cover for 'Running for Dummies: A Reference for the Rest of Us!' by Florence Delorez Griffith Joyner and John Hanc. The main content area displays the title, authors (Florence Delorez Griffith Joyner, John Hanc), year (1999), language (English), and format (Book xxx, 256 p. : ill. : 24 cm). It also shows the publisher (Foster City, CA : IDG Books, ; ISBN: 0764550969 9780764550966) and a brief description: 'The five-time Olympic medalist shares tips for running.' Below this, there is a 'GET THIS ITEM' section with an 'Access:' link to the catalog entry. The 'Availability:' section includes a link to check catalogs in the library and a link to search the catalog at the University of Hartford. The 'External Resources:' section includes a link to 'ILL this with ILLiad @ H' and links to find the item at Abebooks.com, Alibris, and the Antiquarian Booksellers Association of America, along with a 'Cite This Item' link.

### Abstract [Translate](#)

Users of mobile devices such as iPhones or iPads are offered a wide range of applications ([apps](#)) regarding sleep and sleep medicine. This article will give an overview about the [apps](#) that are available. Moreover, it will present how they work and determine if they can be used in therapy.

The [apps](#)' competence to count snoring noises had to be evaluated. This was done with a three-piece test set-up to analyze the [apps](#)' ability to distinguish between snoring sounds and disturbing noises such as cars driving past the window, conversations in the bedroom, or even just the rustling of sheets and blankets.

The tested [apps](#) monitor and record snoring noises well as long as they are used in a soundproof environment. In a real-life environment with various disturbing noises, the [apps](#) show difficulties in telling snoring sounds and other noises apart.

The tested [apps](#) are not accurate enough to replace the common diagnostic standard in therapy. However, they can be a helpful addition. Especially, singles could use them who do not know if their snoring has improved with an OA and do not have anybody to ask.

Not all databases will display the ILL this with ILLiad @ H link. If you've found a citation for material you need and you don't see the link, just open up a new tab or window, log in to your [ILLiad @ H](#) account, select the type of request form you need, and copy/paste the information in to the appropriate fields.
